Summer Camp Sponsorships

It is an exciting time to get involved with Special Equestrians! Our summer camp is designed to support the ever-changing needs of children with disabilities - from working directly with our horses, to sensory integration, brain breaks, and group activities, each hour of camp is tailored to needs of the kids. By becoming a Special Equestrians Summer Camp Sponsor you will play an important role in the meaningful activities and nourishment we provide each day, and cover the costs associated with meeting the needs of such a diverse and special group of kids.

Sponsorships can enhance your company's image and visibility in the community and we have designed packages with varying benefits that are sure to fit within any advertising budget. Thank you for your consideration and for helping to make a difference in the lives of children this summer.
